

Tuff-Stick

Durably Visible

**Markers and Graphics
for Tough Environments**

Shakespeare Composite Structures Tuff-Stick Markers are available in a selection of colors to meet the needs of utility, telecommunications, water/sewer, and general marking. The one-piece, fiberglass reinforced composite markers are **easily installed** into almost any terrain. Tuff-Stick is **weather resistant**, ultraviolet resistant, and temperature stable. **Flexible** enough to withstand repeated impacts without breaking, it's **flame resistant** in accordance with ASTM D635. Series MKR10 markers are flat on two sides for application of one or two decals.

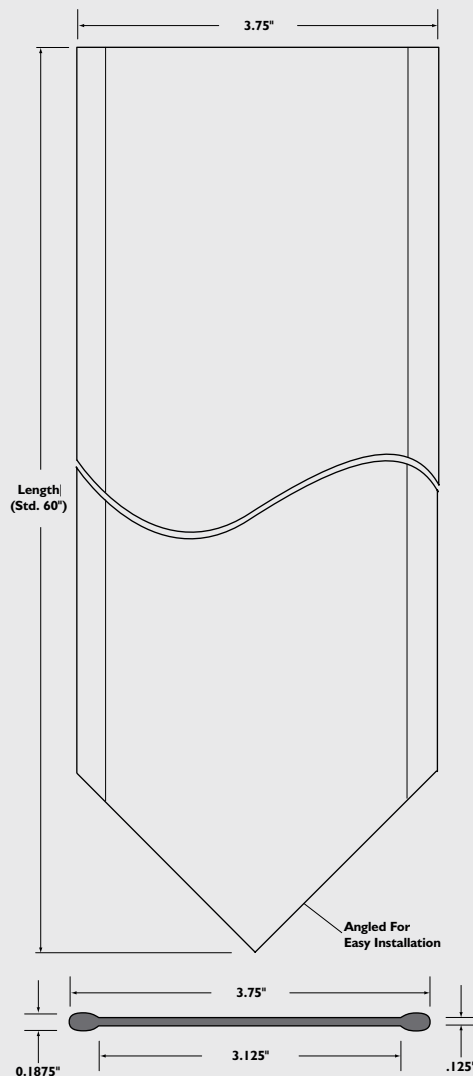

Choose our standard graphics decals or customize to your needs. ANSI-compliant graphics decals are available in standard or reflective surfaces, for Telecommunications, Electric Utility, Water, Sewer, Fiber Optics, and other applications.

★ **Fast, Easy Installation**

• **High Visibility**

★ **Extreme Tolerance to Harsh Environments**

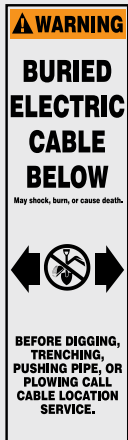

★ **Cost effective**

Standard or reflective decals are available in the colors and styles illustrated on Page 3. Specify "R" for reflective. Custom and personalized decals are available... Just call.

Decals are 3" wide, 11" tall except where noted.
